The background features large green leaves on the left and two large green footprints on the right. A trail of small white icons, including a recycling symbol, a lightbulb, a house, and a leaf, leads to a central 'ECO' logo.

CARBON FOOTPRINT CALCULATOR

Calculate the emissions of your company to make greener decisions for the future, in Microsoft Teams.

www.eos-solutions.it/en/carbon-footprint-calculator.html

Carbon Footprint Calculator

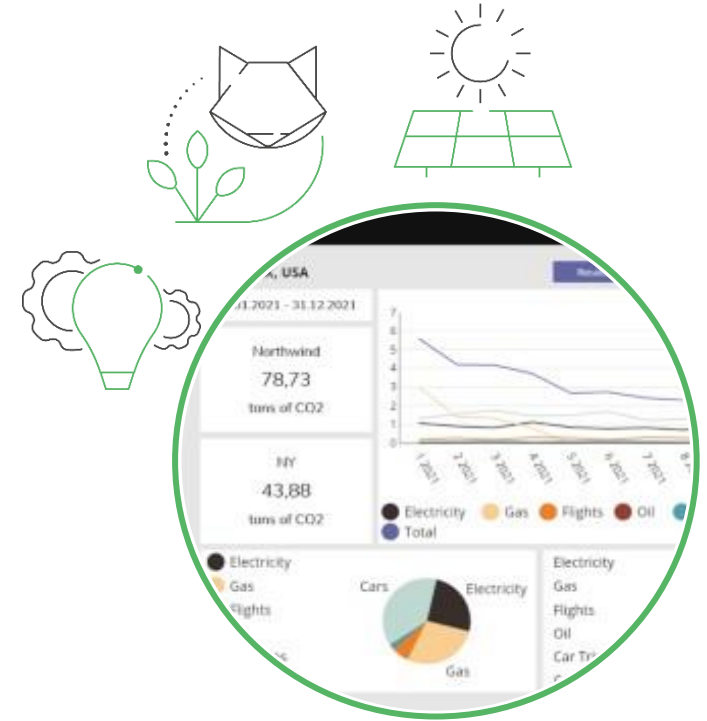

App for Microsoft Teams

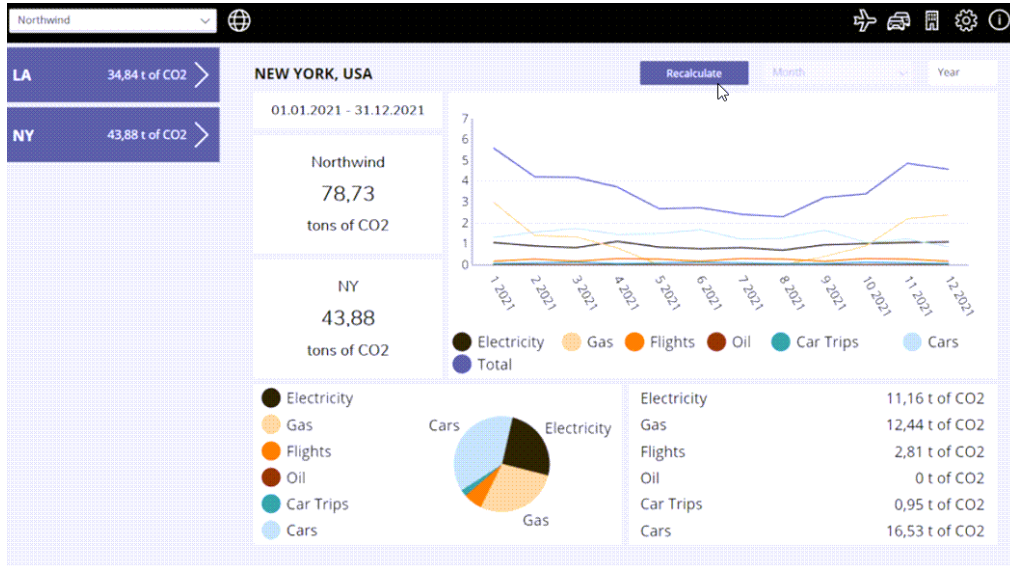

DO YOU WANT AN OVERVIEW OF YOUR COMPANY'S EMISSIONS, LOCATION BY LOCATION? DO YOU NEED TO VIEW CO2 EMISSIONS RELATED TO EMPLOYEE TRAVEL?

DO YOU WANT SIMPLE DIAGRAMS TO ANALYZE CONSUMPTION AND MAKE DECISIONS WITH LOW ENVIRONMENTAL IMPACT?

The **Carbon Footprint Calculator** app by Eos Solutions allows you to identify the "carbon hotspots" in your company in order to analyze them and make sustainable choices. All within Microsoft Teams.

Here is a list of the features involved

Add the app to your company's Teams

Carbon Footprint Calculator runs on Power Apps and works within Microsoft Teams

Add your own logo and change the colors, so the identity of your company gets reflected

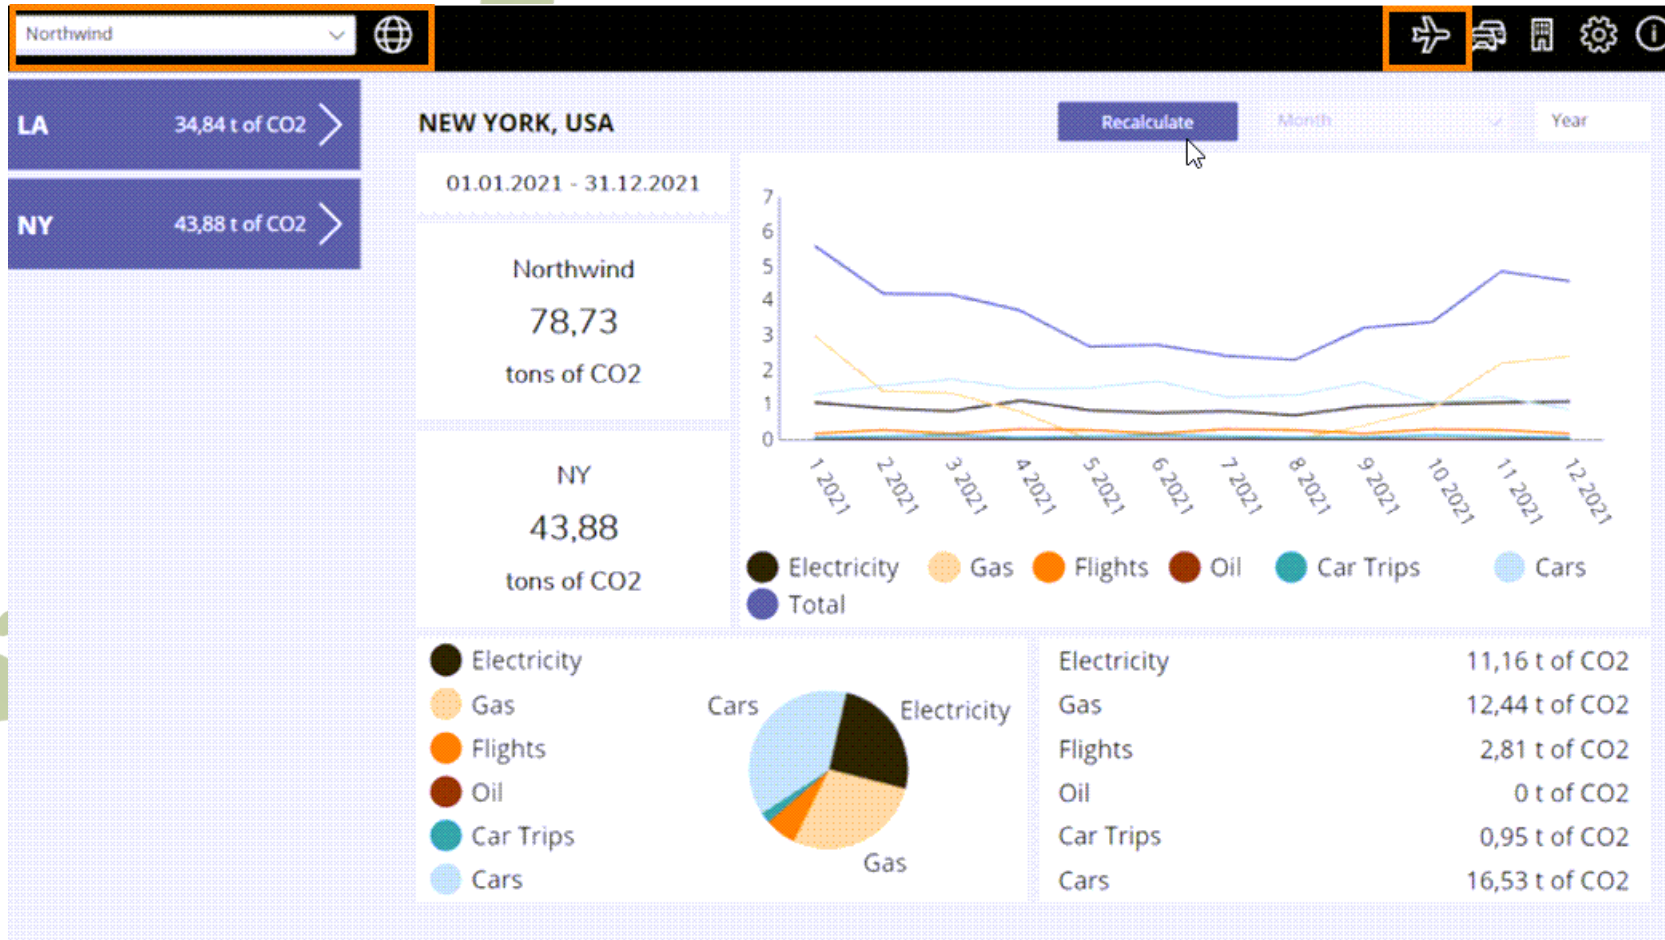

Simply choose an employee or a car, insert the distance and the date, to have all the information about consumption

Interactive dashboard Gain an overview of your company's emissions and even of your various business sites on the easy-to-read dashboard

Overview

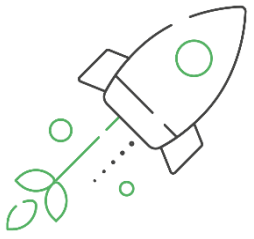

Select a company on the top left and change the language, if necessary, by clicking on the globe icon.

On the homepage you find a line diagram and the tons of CO2 from the company and the business sites.

You can set a date filter to see the emissions at a specific time.

If you click on the plane icon on the top bar, you reach the employee trip page.

Travel

Employee Trip | Northwind

Employee	Distance in km	From	To	Month	Year	
Jane Smith	328	New York	Washington	December	2021	
Joe Bloggs	328	Washington	New York	December	2021	
Jane Smith	300	New York	Philadelphia	December	2021	
Kari Nordmann	380	Los Angeles	Las Vegas	December	2021	
Jane Smith	380	Las Vegas	Los Angeles	December	2021	
Joe Bloggs	380	Los Angeles	San Diego	December	2021	
Jane Smith	537	New York	Montreal	November	2021	
Jane Smith	537	Montreal	New York	November	2021	
Jane Smith	500	New York	Albany	November	2021	
Joe Bloggs	550	Los Angeles	San Francisco	November	2021	

if you click on the add icon, a new row gets created, where you can choose an employee, the type of transportation, the distance, the month and the year.

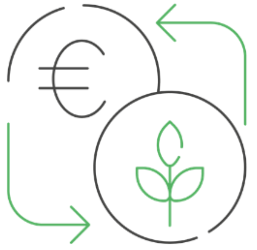

To delete a record just click on the trash can icon.

To save the new record, click on the check icon in the top right corner. If you save the change, the system will automatically calculate the emissions and add them to the total

The car icon leads you to the car mileage page.

Energy consumption

To reach the energy consumption page, you must click on the building icon.

On this page you insert the quantity of oil, electricity, or gas of your company.

You can even choose if the energy used is carbon neutral.

Site	Type	Carbon Neutral	Quantity	Month	Year
New York, USA	Gas	<input type="radio"/>	1200	m ³ December	2021
Los Angeles, USA	Gas	<input type="radio"/>	1300	m ³ December	2021
Los Angeles, USA	Electricity	<input checked="" type="checkbox"/>	3550	kW/h December	2021
New York, USA	Electricity	<input checked="" type="checkbox"/>	3900	kW/h December	2021
Los Angeles, USA	Gas	<input type="radio"/>	890	m ³ November	2021
New York, USA	Gas	<input checked="" type="checkbox"/>	1100	m ³ November	2021
